Focus Area (check all that apply):

- ☐ Connection to People: We bring people together through community events, honest conversations about race and equity, and partnerships that strengthen both our neighborhood and the people in it. We build relationships with residents, celebrate their unique talents, and create spaces that support connection, growth, and overall wellbeing.
- ☐ Connection to Place: We help people feel at home in their neighborhood by creating inviting spaces—like playful streetscapes, community events, and safer walkways. Through ongoing care and investment, we work to build a place where everyone feels welcome, proud, and connected.
- ☐ Connection to Purpose: We make sure every voice has a place in shaping our work, putting inclusion, diversity, and community input first. We help people discover what they care about most and connect them to meaningful ways to get involved through local organizations and initiatives.
